CONCORD, NEW HAMPSHIRE

NOTICE OF TITLE V PERMIT REVIEW
PUBLIC HEARING AND COMMENT PERIOD

Pursuant to the New Hampshire Code of Administrative Rules, Env-A 622.02, notice is hereby given that the Director of the New Hampshire Department of Environmental Services, Air Resources Division (Director), has received a Title V permit application from, and based on the information received to date, intends to **issue such Title V permit to:**

Wheelabrator Concord Company, L.P.

Located at:

11 Whitney Road
Penacook, NH 03303

Wheelabrator Concord Company, L.P. (Wheelabrator) operates two large municipal waste combustors (MWC) in Penacook, New Hampshire. Wheelabrator burns municipal solid waste in two identical mass burn waterwall boilers to generate steam. Each boiler is equipped with two auxiliary propane-fired burners. A single steam driven turbine/generator uses the steam to generate electricity for sale to the local utility. The gross generating capacity of the turbine/generator is 16 MW. The facility is permitted to burn types 0, 1, 2, 3, and 6 wastes, as those terms are defined in Env-A 101. Each boiler stack is equipped with a continuous opacity monitoring system and a continuous emissions monitoring system, which measures nitrogen oxides, sulfur dioxide and carbon monoxide emissions. The two large MWC units are subject to Section 129(e) of the 1990 Clean Air Act Amendments and the facility therefore requires a Title V Operating Permit.

The completed application and draft permit is on file with the Director, New Hampshire Department of Environmental Services, Air Resources Division, 29 Hazen Drive, P.O. Box 95, Concord, NH 03302-0095, (603) 271-1370. Information may be reviewed at the office during working hours from 8 a.m. to 4 p.m., Monday through Friday. Additional information may also be obtained by contacting **Padmaja Baru** at the above address and phone number. Requests for a public hearing and/or written comments filed with the Director in accordance with Env-A 622.05, and received no later than **Thursday, July 24, 2008**, shall be considered by the Director in making a final decision.

Robert R. Scott
Director
Air Resources Division
